Explore the Outer Reef Wall

Island, Sand Cay or Outer Reef

If you only experience the Great Barrier Reef once, you will want to see it at its' best. Outer Reef locations such as Marine World are renowned for their superior coral quality, colour and overall diversity of reef life. Located in clean ocean waters, higher coral densities and less sediment result in maximum water clarity in a wider range of weather conditions.

Ideally positioned behind the protection of the Outer Reef wall, Marine World is home to quality examples of the reefs 400 coral and 1500 colourful fish species including everyone's favourite – Wally, our resident Maori Wrasse (Cover Photo)
